

# Asset Management BC Conference

~ *Asset Management: Scalable – Doable – Achievable* ~

Radisson Vancouver Airport Hotel - November 9 & 10, 2017

## *Keynote speaker*

**Dr. Guy Félio, P.Eng., FCSCE, IRP (Climate)**

Senior Advisor, Asset Management Solutions and  
Infrastructure Resilience, Stantec Consulting Ltd.

Dr. Felio is an infrastructure and climate change specialist, an engineer and ex municipal politician. He was project manager for InfraGuide, the Canadian Infrastructure Report Card and has had significant input to the national asset management agenda through employment with Infrastructure Canada and Engineers Canada. He has extensive international experience integrating climate change risk and asset management. He continues to be a national leader and expert in developing and implementing asset management best practices for local governments of all sizes and our first nations communities.
